Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels should remain Low in the prevailing unsettled weather conditions, with the breeze in northern UK additionally helping to disperse locally-generated pollutants.

Tomorrow: Mainly Low air pollution levels are expected, however parts of southern Britain may see local Moderate levels, as light winds here will be less dispersive.

Outlook: Northern UK should retain Low air pollution levels, however there remains a risk of local Moderate air pollution in the south, given continuing light winds and settled conditions.
